MORNING DREAM – THE BIRTHING OF NEW THINGS.

In a dream at the early hour of this morning I found myself in the delivery room.

I was among the nurses that took delivery of a new born baby. The birth attendants were men instead of women and were very skillful in taking the delivery and helping the mother and cleaning her up afterwards.

I did not see the baby that was born whether male or female but it was safe. We also paid a lot of attention in dealing with sorcery and witchcraft so that it does not affect mother or baby. We prayed and made proclamations in this regard as part of our training for the job.

@ 4am, 10-3-19.

Afterwards the word of the Lord came to me: The Lord said:

We are in the season of birthing of new things.

Two pictures came to me from scripture:

The birth of **John the Baptist**: Probably one of the most important events of that era. By Jesus' testimony, one of the most important prophets of his era. (See Lk.7:28).

But how many people were aware of his birth? Only his pious parents and probably his cousin Mary.

The birth of **Jesus Christ**: Without doubt, the most important event in human history. How many people were aware of his birth?

Simeon the Priest, Hannah the praying prophetic woman, his adopted father Joseph and his mother Mary. The Chief Priest and High Priests with the religious order of that time, the Sanhedrin were left out of the picture.

The Lord said to me afterwards to go through our Book, God's Eternal Plan for Nigeria again.

That, in that book, He has given us His word concerning Nigeria and that the word He gave us is faithful.

The fulfilment may not come the way we have pictured it but it will come all the same because His ways are not our ways. (See Is.55:7-12).

I must confess that the word that came to me this morning strengthened me because I was greatly discouraged after engaging in the pre-election

outreaches and finding out the true state of the Church and the premium the leadership still placed on money in total disregard to the will of God. I have been struggling to shake off the disappointment.

The Lord also re-affirmed that we have entered the Seventh Era of our nation and that all things built on man will crash.

Nature does not abhor vacuum. If God is going to pull down human systems, this is the time to begin to build heaven's patterns.

It may not look mighty at first, because anything that is truly the seed of God may not look big at the beginning.

One thought that began to form in my heart in my meditations after the dream was to begin to interrogate our processes. Let me mention one.

OUR POLITICAL PROCESS:

I followed closely Prof. Gana's campaign from the time his group left PDP around March last year and some lessons could be learnt.

- 1. The Party Structure:** Was still left in the hands of people who were not Disciples of Christ and who were without allegiance to the kingdom. Once money was on the table, they betrayed him and betrayed the nation. The case of the former SDP Chairman was most pitiable because at his age, he did not have to do what he did. What if the Remnant Church takes over from the bottom a new political platform and begin today to build it from the scratch with 2023 in mind? Must we wait until a few months to the election before we begin to run around?
- 2. Party Financing:**
The political process at the end of the day requires money to finance. What if we begin to pray now for kingdom financiers, or begin a process of building kingdom businesses that could provide financial backing for kingdom candidates?
This the job of the Remnant Church. The big Churches some of which have become Babylon will never be able to do this so there is no need looking in that direction. The present culture of our Church leaders is to take money from politicians even when they are rich in their own right and it will not change overnight.
- 3. Raising the Zerubbabels:** The Book of Haggai gives us a picture heaven's pattern for taking dominion politically. There must be a cooperation between the Prophets, the Priests and the Governors or kingdom administrators.
I believe that Prof. Jerry Gana remains the most visible Christian politician with the clout, anointing and experience to provide political leadership for the Church in this transition season.

What if we build the Zerrubbabels around him and begin to raise candidates from the LGA's, State House of Assembly etc and build slowly but deliberately?

I am convinced that if we hold onto God's word and begin to act in faith, He will eventually intervene in the process to give us the advantage.

What we have presently in the Buhari Presidency is not acceptable to heaven. God will disrupt it eventually but we need to be ready to fill in the vacuum that is sure to come.

May the Lord build us into skillful spiritual midwives to nurse the things that heaven is birthing here and there and may we be found faithful.

Shalom!
